Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3,4,9,10,15,17,18 are rejected under 35 U.S.C. 102(b) as being anticipated by Koros et al. (5,928,139).

With respect to claim 1, Koros et al disclose a system for accessing a surgical site, comprising the steps of an initial distraction system for creating an initial distraction, as set forth in column 6, lines 42-47, an assembly (10) capable of distracting from the initial distraction corridor to a secondary distraction corridor and thereafter sequentially receiving a plurality of retractor blades for retracting from the secondary distraction corridor to thereby create an operative corridor to the surgical target site, as set forth in column 6, lines 47-53.

With respect to claims 3,4,9,10, Koros et al discloses all the limitations, as set forth in column 6, lines 42-53, and as best seen in FIGS. 1-6.

With respect to claims 15,17,18, the method steps, as set forth, would have been inherently carried out in the operation of the device, as set forth above.

Allowable Subject Matter

Claims 2, 5-8, 11-14, 16,19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
